

Workshop - Jeff Zeig Bringing out the Best

Bringing out the best in your clients - Ericksonian hypnotherapy demystified

Workshop/Seminar - Jeffrey K. Zeig, Ph.D.

Founder and Director of the Milton H. Erickson Foundation (www.erickson-foundation.org). He has edited, co-edited, authored or coauthored more than 20 books on psychotherapy that appear in 15 foreign languages. Jeff Zeig is the architect of The Evolution of Psychotherapy Conferences, the Brief Therapy Conferences, the Couples Conferences, and the International Congresses on Ericksonian Approaches to Hypnosis and Psychotherapy.

Rather than exorcists casting out the hidden demons of suffering and deficits, contemporary coaches and consultants look more like treasure hunters seeking the unrecognized gems in their clients' lives and personalities. Ericksonian practice is an especially powerful tool for helping clients plumb for the best in their own natures and experience directly the untapped reservoirs of determination, intelligence, optimism and love that ultimately provide healthful processes. Designed for both the beginner and the more experienced practitioner, this workshop will feature live demonstrations, as well as lecture, videotapes, and experiential exercises. No previous training in Ericksonian methods of hypnotherapy is necessary. Advanced practitioners are welcome.

Objectives

In this intensive workshop, dramatic advances in the enhancing of the experiential impact of coaching & therapy will be presented. Participants will also learn the use of such classic methods as the interspersal technique and anecdotes, with a range of common coaching topics.
